C7000VPe

RENEW

The Canon imagePRESS C7000VPe is a factory-produced new engine that's manufactured to perform like a Canon imagePRESS C7011VP digital press.

The pre-owned unit undergoes a demanding factory process at the Canon Virginia facility, including five comprehensive, 11-point evaluations and inspections. The criteria are rigorous and the procedures are meticulously performed—which is exactly what you'd expect from Canon.
